This striking Contemporary home is prominently sited on a prestigious cul-de-sac. The circular driveway is enhanced with stunning mature plantings and perennials gardens. Elegant white oak floors, large windows and high ceilings complement the open design. The updated gourmet kitchen has a brick fireplace, an abundance of custom cabinetry and a separate breakfast area. A screened-in-porch off the kitchen overlooks the private grounds. A family room with a majestic fireplace, formal dining and living room and office with built-in shelves complete the main floor. Walls of windows accent the second floor landing that lead to the master suite and the well proportioned bedrooms. The lower level carpeted playroom with paneled walls, workshop and mud area complete this fabulous home. Close to Weston town center and conservation land with walking and bike trails.
